

13 May 2011

## Another successful conference!

London hosted the Morison International Europe and North America (MIENA) annual conference on 6-7 May 2011. 92% of all regional firms registered for the event (95 delegates and 30 companions) as well as an encouraging number of delegates from other regions.

The event combined technical and professional sessions with a lively social programme that provided delegates the opportunity to network both formally and informally. The event also welcomed 5 new regional firms.

The unique culture of Morison International was frequently commented on and nicely summarised by Arvind Hickman, Editor, *International Accounting Bulletin* as follows: *"I don't know any other accounting network or association with such wonderful and welcoming people. I love attending your events and would*

*be happy to contribute to them in anyway that you would find meaningful and useful."*

On behalf of all member firms, our great thanks is due to host firm MacIntyre Hudson who provided enormous levels of support,

assistance and enthusiasm leading up to and throughout the conference as well as warmly welcoming all delegates to their City office for a highly enjoyable drinks reception. MacIntyre Hudson (founding member of growing UK association MHA) is home to MIENA's newly appointed Chairman, Howard Lewis.

Zurich, Switzerland will host the 2012 MIENA conference and further details will be announced shortly.
