vBAP offers property owners, investors and financial institutions independent consultancy services with regards to the evaluation and utilisation of properties. Services include a range of valuation assessments and reports, inspections and evaluations of property portfolios, assessments and recommendations for the future use of properties that are no longer needed for business operations.

vBAP can support clients internationally via their network of associates in key locations worldwide.

Carsten Deecke, Partner of Dierkes Partner said “we are very positive about this interdisciplinary cooperation as both firms share the same core values of quality and customer focus and this new service has been much anticipated by our clients”.

Morison International would like to congratulate Dierkes Partner on this collaboration!
